Cover Letter

Dear Hiring Committee,

I am writing to express my interest in the Research Assistant Professor position at the Toyota Technological Institute at Chicago (TTIC). I am excited to join TTIC's esteemed faculty and contribute to cutting-edge research in computer vision and machine learning.

As a highly motivated researcher with a strong background in computer vision and learning-based computational photography, I am confident that my skills and experience complement the ongoing research at TTIC. I plan to graduate from the University of Illinois, Urbana-Champaign in May 2023 with a PhD in Computer Science under Prof. David Forsyth's guidance. My primary research focus is on enhancing both generative and discriminative models with illumination physics to enhance their robustness and generalizability. Additionally, I have experience in developing techniques to improve view generalization capabilities of neural rendering systems and accurate 3D object models from small numbers of images.

I am particularly drawn to TTIC's focus on interdisciplinary research and collaboration, and I am excited about the opportunity to work alongside some of the leading researchers in computer vision and machine learning. I am confident that my background and experience make me a strong candidate for the Research Assistant Professor position, and I look forward to the opportunity to contribute to the continued success of the institute.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,
Anand Bhattad
PhD Candidate, Computer Science
University of Illinois, Urbana-Champaign
